

20 Window Seats So Cozy, We'd Never Want to Leave

We've found the perfect place to daydream.

Pay Attention to Scale

You can anchor a room around a window seat if it's large enough. [Alison Pickart](#) took advantage of large bay windows with a spacious window seat and then added a coffee table and angled two arm chairs towards each other for a little sitting room. This helps bring down the dramatic, high vaulted ceilings to a human and homey scale.
