As an editor at *House Beautiful*, it's no surprise that I believe good design has the power to promote a positive mood. But there's also a pretty big crowd within the science community backing me up. For example, a 2015 survey published in the Journal of the Association for Psychological Science reports that most people feel like their emotional wellbeing is influenced (and in some cases, regulated) by a room's ambiance. And since your bedroom is where you go

Upholster the Walls

The moody gray velvet walls and matching headboard bring a smoky, textural allure to the otherwise white, bright, and airy space designed by [Alison Pickart](#). No artwork is needed, as these soft upholstered walls speak for themselves.
